

Session summary

The second race of the season in the desert. MM Cringy back in business as he has set up his rig. And how, with a win he is back for sure.

Session with a restart. **Deauj'** Xbox crashed on him. This caused he glitch in the game an a restart had to be done.

That restart was great for some but not for everyone. Poor start for **DenJef** after a great Pole. **Cringy** glad he got a second change.

Bit of a hectic start. Four cars next to each other. **Fourie** had some troubles with **Gurbe**, also later on in the race. Guest driver **JeanCarlos** took his lawnmower to Bahrain to cut the grass short. **LegendZz** got damage on **Lexidas** and had to change his wing.

Close battling between the top 4 drivers. Nice 2nd place in the last lap for **DenJef** on **Timo**. We guess this was a revenge of what happened in Australia. **Berry** strong performance and giving the others a good challenge.

Next week is Vietnam. We believe not the most favorite track for most but we have to make the best of it.

Till next week!

Details per lap

L1-T1 **Carlos** hits **Cringy** and Spins. This start, also the grass cutting and hitting **DenJef** at taking the turn, and this hit results in a no guest driving for a while. This is the only possible punishment for guest drivers. Also the early retiring plays a factor in this decision.

Fourie and **Gurbe** touched. Looked like to much throttle for **Fourie**. No damage for **Gurbe**. No further action.

L3-T14 **Lando** got damage on **Iepovich**.

L7-T12 **LegendZz** touched the most dangerous curb on the track. It cost him a DNF.

L9-T3 The VSC cost **Stef** a DT penalty. After this he lost the car and hits the wall.

L15-T10 Before this **Gurbe** had a great overtake in Turn 8 (the second one in L22 on **Samuel** was too late). By surprise of **Fourie** as he struggles with his car control. After that **Fourie** lost again control in Turn 10, hits **Gurbe** and hits the wall hard. With no explanation to us about this action a license point is in place as **Gurbe** got a time penalty on his sheet.

GurbeGaming

Great start from Gurbe. Overtaking the two Mercedes drivers in the first lap. We see many improving and also great awareness on other drivers. Nice.

EconomicBerry

Also a lot of improving for him. Great Qualy and great start. Driving in front for a couple of laps. Nice one with that P4.

StefRBR33

Twin brother of **Huub**. Still can not drive at the same time so he took over the wheel. Not the best debut but we think you can do more! Keep going!

Escaapo

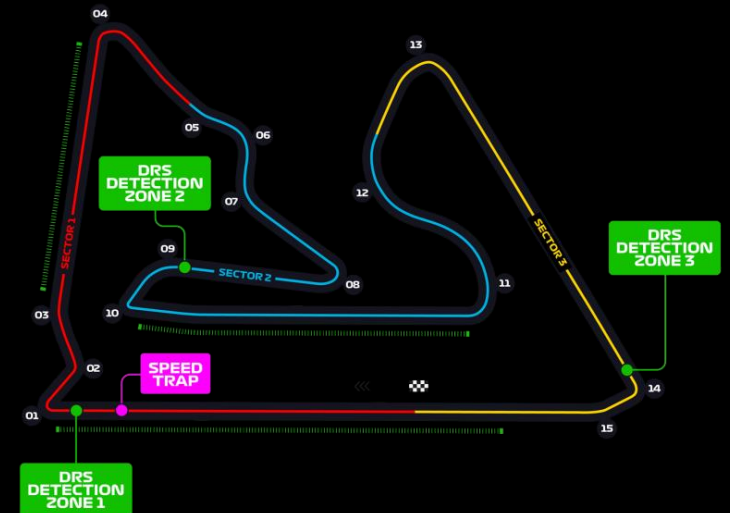

Already driving in the 2nd divison. Signed up for this one. It looks like a perfect fit. So as soon there is a place available the spot is his. Before that, guest driving it is.

Timo

Was on his way to his second win. **Cringy** just a bit to quick and also **DenJef** on the last lap with some extra ERS in the tank got past. You know what to do **Timo!** Get them next time!

GEIT SAMUEL

Not his day. We have seen better last week in some five lappers. We think you are a bit to nice. Show your teeth and you will see!
