

## Session summary

Good session in terms of times and connection. No issues and strong times from everyone.

**Stryher** ruined the hotlap of **Escaapo**. This driver will get a warning for this. Very important to check your surroundings. Also the case for **GA LegendZz**.

**Cringy** could not keep his super fast pole lap when the lights went out. **Denjef** with a strong start and calm and steady first laps.

The first and second corner are hard corners for two cars at once. We can see it on many clips. It's all clean, but some wheel banging was unavoidable.

Congratulations to **DenJef** for the win. Great job.

**Deauj**, also great job with the driver of the award. We agree on the games decision.

Zandvoort is next. Hard to overtake on this track. Superfast and enjoyable for the most of us. We can't wait to battle there.

If you have any question about this report or other matters please let us know!

Stay healthy!

## Details per lap

L1-T1 **Lando** hits **WT2FLEX**. Spins, no damage. Spoken about and a warning given. Guest driver **Admiral Beni** crashing into **Lando**, causing carnage with **Stryher**. **Beni** will drive in 2<sup>nd</sup> division to learn the game.

L1-T6 **GA LegendZz** went in to hard. A warning for this. We also ask you to be more aware of the mini-map and other drivers during Q and Race.

L4-T11 **Admiral Beni** spins and caused a VSC.

L14-T14 **Admiral Beni** causing a SC. His brake pedal failed was his explanation.

L18-16 **Samuel** spins by **Timmy**. This is a guest driver and can not be punished. Future guest races will be reviewed. He also caused a 2 seconds time penalty during SC.

L24-T8 Close battle. **Lexidas** got damage on **Huub**. Hard to put the blame on someone. In the clip of **Lexidas** it looks **Huub** is next to him. **Lexidas** hits him. In the clip of **lepovich** we can see **Huub** is a bit too much to the left side. Race incident.

L24-T14 Before this turn **Stef** switches 2 times. From left to right, and back to the left again. **Berry** responds in a hard overtake. Both actions not gold medal worthy. We do notice **Berry** not being to most patient driver on the grid and want to ask him to try to wait more for certain overtakes. Sometimes it's a bit to aggressive.

## Details per driver / team \*Note: not everyone will be mentioned.

### DenJef and Deauj

There was a argument between the two drivers about the space given. It is normal to get as close as possible in the last corner just before the speed goes up. It is not needed before that. The behaviour of **Deauj** on the long straight (way long before race start) is very annoying for others. Also it can cause wing damage and time penalties if drivers hit. This will be added in the guide as a rule. Penalty is a license point in future races if the rule is broken.

### WT2FLEX, lepovich, Lexidas and Huub.

Very cool session after the SC. Great battles and fair driving. Close call at the last corner!

### Lexidas and Jakes

During the SC **Lexidas** got instructions to stay behind **Timo**. **Jakes** past **Lexidas** and immediately after that he got instructions to stay behind **Jakes**. After investigation **Jakes** wasn't aware of **Lexidas** presence and also wasn't aware of the hit that made **Lexidas** spin. Most likely It was a connection issue.

### Cringyy, Timo, DenJef and Deauj

**Cringyy** got 5 seconds penalty caused by **Timo**. **Timo** admitted it was his fault. The guide says penalties given by the game will not be corrected. We want to give this a rule a twist. The points missed by **Cringyy** will be paid by **Timo**. This will be visible in a extra column on the leaderboard. The end result of the race will not be affected this way. It will also create more awareness during SC. This rule is active at once and will be used as mentioned in this particular case.

### Fourie

Yesterday we got the news that **Fourie** is infected with Covid. Yesterday he almost joined our race because it was going okay. He was on the better hand. Today we got the news that he was taken to the hospital and is being treated with extra care. As we can see this virus is unpredictable. We want to wish him all the best and a quick recovery.
